In re Patent of: Chaganti et al.

Patent No.: 6,845,448 B1	Application Ser. No.: 09/478796
Issue Date: January 18, 2005	Inventors: Naren Chaganti et al.
Title: Online Repository for Personal Information	Docket No. PSCO-005

REQUEST FOR A CERTIFICATE OF CORRECTION

ASSISTANT COMMISSIONER FOR PATENTS
Attn: Certificate of Correction Branch
P.O. Box 1450
Alexandria, VA 22313-1450

**Certificate
of Correction**
OCT 17 2007

Sir:

This is a request to correct certain errors in one of the claims in the above-referenced application. Due to oversight of Applicants as well as apparently of the Office, certain steps in claim 3 as published are issued with duplicate language. Accordingly, Claim 3 is sought to be corrected as follows:

3. A method for automatically disbursing a first party's personal information to a second party authorized by the first party by transmitting said first party's personal information from a server computer operated by a service provider, said server computer coupled to a database, the method comprising the steps of:

establishing an account for the first party with the server computer;
assigning an identifier to the first party;

entering the first party's personal information, said first party's personal information comprising at least one of a plurality of information objects;

assigning, by the first party, at least one of a plurality of security levels to each information object at any granularity, thereby enabling access to individually selected portions of the first party's personal information by individual receiving parties;

OCT 17 2007

storing in the database the first party identifier, the information object and the security level assigned to the information object;

receiving a request, said request comprising at least the first party identifier;

in response to the request, selecting a first portion of the first party's personal information objects that could be transmitted to a second party;

retrieving from the database the selected first portion of personal information objects, securely transmitting the retrieved first portion of personal information objects to the second party;

generating an authorization key;

~~providing the authorization key to the second party; and~~

encoding the authorization key with at least one of a plurality of criteria, ~~generating an authorization key; and~~

providing the authorization key to the second party;

wherein the at least one of a plurality of criteria includes a criterion to indicate the number of times the authorization key can be used by the second party to obtain access.

As seen from the alterations, no new matter is added or existing matter deleted. Please issue a Certificate of Correction as shown in the attached Form PTO SB/44. Please assign this case to Customer No. 24490 for all future correspondence. A payment of \$100 under 37 C.F.R. § 1.20(a) is enclosed.

Respectfully Submitted,

Date: October 10, 2007

PATENT NO. : 6,845,448

APPLICATION NO.: 09/478,796

ISSUE DATE : January 18, 2005

INVENTOR(S) : Naren Chaganti, Sitapathi Rao Chaganti & Damayanti Chaganti

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 15, line 1, cancel the text beginning with "A method for" to and ending "obtain access." in Column 16, line 19, and insert the following claim:

3. A method for automatically disbursing a first party's personal information to a second party authorized by the first party by transmitting said first party's personal information from a server computer operated by a service provider, said server computer coupled to a database, the method comprising the steps of:

establishing an account for the first party with the server computer; assigning an identifier to the first party;

entering the first party's personal information, said first party's personal information comprising at least one of a plurality of information objects;

assigning, by the first party, at least one of a plurality of security levels to each information object at any granularity, thereby enabling access to individually selected portions of the first party's personal information by individual receiving parties;

storing in the database the first party identifier, the information object and the security level assigned to the information object;

receiving a request, said request comprising at least the first party identifier;

in response to the request, selecting a first portion of the first party's personal information objects that could be transmitted to a second party;

retrieving from the database the selected first portion of personal information objects;

securely transmitting the retrieved first portion of personal information objects to the second party;

generating an authorization key;

encoding the authorization key with at least one of a plurality of criteria; and

providing the authorization key to the second party;

wherein the at least one of a plurality of criteria includes a criterion to indicate the number of times the authorization key can be used by the second party to obtain access.

MAILING ADDRESS OF SENDER (Please do not use customer number below):

Naren Chaganti
